IT Acceptable Use Policy

Version 1.0 - Effective 1 April 2026

1. Purpose

This policy sets rules for the acceptable use of Company IT systems, devices and data.

2. Passwords

Passwords must be at least 12 characters and include upper-case, lower-case, numeric and special characters. Passwords must be changed every 90 days and must never be shared. Multi-factor authentication is mandatory for email and VPN.

3. Software

Only software approved by the IT department may be installed on Company devices. Requests for new software are raised through the IT service desk and are reviewed within 5 working days.

4. Personal Devices (BYOD)

Personal devices may access Company email only after enrolment in the mobile device management (MDM) system. Company data must not be stored on personal cloud storage.

5. Incident Reporting

Suspected security incidents, phishing emails or lost devices must be reported to the IT security team at security@company.example within 1 hour of discovery.

6. Violations

Violations of this policy may result in disciplinary action up to and including termination of employment.
